Second Term—Collateral chords of the Seventh and their resolu- tion, inversions, exercises with given Bass.

Fourth Term—Chorals; harmonizing a given soprano, alto, tenor, bass; additional clefs.

Fifth Term—Additional exercises with given soprano, original exercises, playing modulations. Jadassohn's Harmony is used as a text, with additional exercises.

Counterpoint.

First Term—Counterpoint, first, second and third orders.

Second Term—Two and three part counterpoint, contrapunc- tional treatment of chorals.

Third Term—Double, triple and quadruple counterpoint, imitation.

History of Music.

This very important study is pursued by the more advanced students through three consecutive terms. In addition to the regular class work, selections from the composers under study are played or sung before the class, and the compositions discussed.

Public Recitals.

Public recitals are held frequently within the term, and at these, the pupils are expected to take part as the teacher may direct. Not
only are these occasions very interesting to the public, but to the students they are of incalculable benefit in training them to appear before an audience without fear and trepidation usually felt by the inexperienced. Each student completing a course in piano, voice, or violin, or pipe organ, is expected to give a recital prior to graduation.

Public School Music.

No field open to the music profession offers such opportunity for rapid advancement as the teaching of music in the public schools. To obtain the proper results in teaching the various grades of pupils, one must have a clear comprehension of each minute subject.

Special attention is given to the essential points, tonal quality, rote singing, sounds of more than one beat, intervals, triads, two-part and three-part singing, how to write melodies, treatment and care of young voices, music in high school, and how to present these subjects systematically and interestingly.

The instruction meets the difficulties arising in the every day experience of a supervisor. The College keeps in touch with superintendents, so as to learn of vacancies and to recommend her graduates as occasion may require. There have been more calls than could be supplied.

First Term—Work required in first and second grades: Rote singing, care of the voice, musical sounds by imitation, first steps in notation.

Second Term—Work required in third, fourth and fifth grades: The major scale, two-part and three-part singing, intervals, signatures triads.

Third Term—Work required in sixth, seventh and eighth grades: Four-part singing, boy altos, tenors, young basses, minor keys, modulation.

Fourth Term—Music in high school, conducting.

Science of Music.

A pupil may be trained to perform artistically and correctly without having his attention especially directed to the Science of Music, but if one wishes to rank among musicians, he must have a thorough knowledge of the fundamental laws of musical sound and harmony. The first three weeks of instruction in this subject are given in the Science Department. This subject is for advanced students, and is required of candidates for a diploma.
Ensemble Playing.

This training is of high value, and pupils are strongly advised to enter the class for ensemble playing.

Ear Training.

Students in Harmony are required to take up this necessary study and practice.

The O. N. U. Choral Society.

The O. N. U. Choral Society, in which all vocal students with suitable voices are enrolled as members, has become a strong feature of the College of Music. Regular rehearsals are held each week. Its repertoire includes Oratorios, Masses, Cantatas, Operas and other standard works. The College of Music is prepared at all times to furnish soloists, duets and male, ladies' or mixed quartets for all public or private occasions.

Concert Opportunities.

During the year, under the auspices of the Lecture Course and also of the College of Music, a series of fine musical entertainments has been given, affording music students opportunity to hear a number of artists in vocal and instrumental roles. To the student the value of such recitals and concerts is inestimable. Among those whom it was a privilege to hear are the following:

- Mme. Julia Rive-King, pianist, New York, in two recitals.
- Miss Balsted, vocalist, Christina, Norway.
- Schrilkret Hungarian Orchestra.
- Mr. Marcus Kellerman, vocalist, Berlin.
- Mr. Alfred Shaw, vocalist, Pittsburg, Pa.
- Mr. Young Mason, Organist, Delaware, O.

SCHOOL OF PIANO TUNING.

The attention of young men and women is called to a pursuit giving large returns for the outlay involved in gaining the requisite knowledge and skill. It may be followed as a calling or as a side line to other occupations. School teachers especially could add to their exchequer by engaging in it at odd hours and in vacation time. Women as well as men are making extraordinary wages in the Profession of Piano Tuning.

The Field.

Last year's output of pianos calls for over 500 additional tuners, and even previously there had existed in many places a scarcity of good tuners.

Those Who Study Tuning.

Musicians, teachers, and in fact any person having a musical ear, whether trained or not, may, with earnest effort, become good tuners under a speedy, practical course of instruction.

The School.

The N. O. School of Piano Tuning invites attention to its excellent facilities, its practical course and the competency of its instructors.

How Taught.

Studios equipped with various makes of pianos are thrown open to the student, who, under the guidance of skilled instructors, is required to follow a course of study covering all details incidental to piano tuning.

Diplomas.

On completion of the course, the student is presented with a diploma from the school. Its reputation for honorable, efficient work renders the diploma of great value to the graduate in securing a position.

History.

The Newcomer School of Expression was founded in 1900 at Ada, Ohio. In order to make it a permanent institution and, with the years, to increase its influence, on May 1, 1908, the founder entered into a contract with the trustees of the Ohio Northern University that on and after September 1, 1908, the School of Expression should be conducted under the management of the O. N. U., with Professor Newcomer in charge.

Aim.

This school maintains that expression is the manifestation of individual character, a revelation of personality, and that mechanical “systems” and “rules” based on imitation fail to develop and reveal the powers of the individual. It therefore aims to give to professional men and women and all others seeking instruction in expression such thorough training as will enable the individual soul easily and rightly to express itself.

Courses of Study.

1. General Culture Course: This is the standard course of the school and is intended to meet the demands, not only of those who contemplate a professional career, but of all desirous of acquiring the ability of ready and pleasing utterance.

Each student is given one hundred and fifty class lessons and ten private lessons each term. Ordinarily forty weeks are needed for the completion of the course.
OUTLINE OF COURSE.

Each student completing this course is required to have a repertoire of at least twenty-five productions averaging ten minutes in length.

2. Professional Course: This course is arranged for those contemplating a platform career. The instruction is adapted to the needs of the student’s intended profession.

Candidates for graduation must have at least a first grade high school diploma or its equivalent.

OUTLINE OF COURSE

First Year: Same as General Culture Course.

Each candidate for graduation is required to have at least forty approved productions and some monologue requiring from one hour to one hour and a half for presentation.

3. Oratorical Course: This course is arranged especially for those wishing to make public speaking a profession. It prepares the student for the lecture platform and the delivery of original productions.

A candidate for graduation must be a graduate of an approved college or university. Forty weeks are needed for the completion of the course.

OUTLINE OF COURSE.

4. Clergyman’s Course: This course is essentially the same as the Oratorical Course except in the subject matter used. A special study is made of the great pulpit productions.

OUTLINE OF COURSE.

In addition to the regular work required in all the courses the student must prepare and deliver at least ten sermons. Special attention given to the vocal and literary interpretation of the Bible. The Bible in worship. The art of the Master. The literary, narrative, didactic, oratoric, allegoric, lyric, dramatic and epic spirit. Rhythmic actions of the mind. Discrimination in thinking. Method of the imagination. Sympathetic identification. Selection and arrangement of the lesson. Harmony of the service.

5. Dramatic Course: This course meets the demands, not only of those contemplating a stage career, but of all interested in dramatic
art in its truest and best sense. Two years are required for its completion.

The work is very practical, more so than that of the schools devoted exclusively to dramatic training. All plays rehearsed are presented before refined and cultured audiences here and elsewhere. Nothing but the best is given, and every play is carefully prepared before presentation. A number of Shakespearean productions are given each year.

OUTLINE OF COURSE.

First Year: Training largely the same as in the General Culture Course.

Second Year: A special study of the drama psychologically and interpretively. A study of the work of the master artists. The student is assigned the leading part in all plays given by the school. Training in all stage business.

Each graduate must pass a thorough and rigid examination and prove to the faculty in his public work that he possesses dramatic instinct in a sufficient degree to warrant his making the work a success.

6. Physical Training Course: This course offers an opportunity for study in every line of training given in the best schools. It may be taken in connection with the regular college work, and is really the gymnassium of the University.

The course includes correct breathing, poise, standing, walking, proper bearing, harmonic gymnastics, Swedish gymnastics, clubs, wands, dumb-bells, fancy drills and marches, fencing, pantomime and gesture—training for the proper and harmonious development of the entire body, under the direction of teachers who are specialists in this line.

The attention of public school teachers is called to this course as especially suited to their needs and fitting them for greater usefulness in their schools and, incidentally, increasing their earning capacity.

7. Stammerer’s and Speech Defects Course: The instruction in this course is usually private, yet much of the work can be taken in class. All kinds of speech defects are treated, and a cure is guaranteed in all cases that are curable. Where nothing can be done, the student is frankly told so. A cure for all kinds of speaker’s sore throat is possible. In several instances men from this school have been put back in the pulpit and on the platform who had despaired of ever again doing public speaking. A speaker who knows how to use his voice may use it all day and experience no fatigue or throat trouble. The aim of the School is to build up a voice that is full, round, clear, resonant, deep, well modulated, sympathetic and, above all, durable.
Auditoriums for Practice.

Students are not required to practice in small rooms. Several large auditoriums, seating from three hundred to two thousand each, afford convenient rehearsal rooms, in which the students practice at regular hours.

Recitals and Contests

The College offers the students many opportunities of appearing before public audiences as Readers, Orators, Debaters, and Public Speakers in general. Over five hundred programs are arranged every year in the University and town, to all of which the students are eligible. In addition, the students are expected to appear in frequent recitals given by the college.

A Lecture Course is supported by the Literary Societies of the University, giving the student an opportunity of hearing the most famous of the platform celebrities.

In Essays, Readings, Orations and Debates there are many contests awarding the winners valuable medals, cash prizes and scholarships. Among them are the contests of the Literary Societies, W. C. T. U., Intercollegiate, Lehr, Interstate, Philo Medals, Kuhn, Prohibition League—home, state, interstate and national.

Libraries.

Students have access to five Libraries of the University containing thousands of volumes. The College library contains two hundred special reference books on every subject found in the six courses; between five and eight thousand Readings, Plays, Drills, Monologues, etc.; Modern Eloquence, 15 volumes; Library of Oratory, 15 volumes; Masterpieces of Eloquence, 25 volumes; compilations of Sermons, Lectures, Debates, Biographies, Statistics, and so on. Use of the Library is required in every study.

Degrees.

Those completing the General Culture Course are entitled to the degree of Bachelor of Expression, those completing the Professional Course to Master of Expression, and those completing the Orator’s and Clergyman’s courses are given the degree of Bachelor of Oratory. Those completing the dramatic course are given a diploma, but no degree. Diploma and graduation fee, $5.00.
Attendance.

Examinations are held every five weeks. No allowance is made for absence except where the student is excused. When a student misses a lesson, he is required to make up the work. One day's notice must be given in order to be excused from a private lesson.

Cost of Instruction.

The tuition for a full year in any of the first five courses is $100, payable in advance, or pro rata by the term in advance. This tuition entitles each student to six hundred class lessons and forty private lessons and in whatever branches he may wish to take in the College of Liberal Arts. The tuition in the Physical Training course is from $20 to $40. The Stammerer's and Speech Defects Course, from $25 to $50.

Special Rates of Tuition.

In order to accommodate those students of the College of Liberal Arts and the special departments of the University who may wish to take work in the department of Expression in connection with their other courses, the following rates are made:

All students who are paying $10 or more tuition per term in the University are entitled to enter any class in the School of Expression on the payment of $5. This entitles them to fifty class lessons. Physical training classes, fifty lessons, $4 per term. Private lessons with Professor Newcomer $1 per hour; with assistant teachers $.75 per hour. All tuition payable at the office of the University in advance.

Credits

A certain amount of the work in the School of Expression may be applied on a degree in the College of Liberal Arts. For further information, see list of electives in College of Liberal Arts.

General Remarks.

The educative effect of a study of the Fine Arts scarcely can be overestimated. It opens the eye to form and color as nothing else can; it trains the hand, refines the taste and cultivates an appreciation of the beautiful.

No part of a lady's education affords her greater ability to render her home beautiful and attractive than the skill in the Fine Arts. It is an accomplishment that leaves its records behind it in the works that have been wrought out. Knowledge may be forgotten, music may be neglected, but the pictures, statue, or carving ceases not to proclaim the success of the student.

The O. N. U. School of Fine Arts is able to announce that ample arrangements have been made for competent and thorough instruction in the fine arts. The Dean is an artist, a successful teacher of large experience and an enthusiast in this line of work.

Those wishing to graduate from the School of Fine Arts are required to pursue, and show proficiency in these branches: Free hand, Crayon, Perspective, Pencil, India Ink, Charcoal Drawing; Lettering; Painting in Landscape, Portrait, Fruit and Flowers in oil and water colors; Pyrography, or burnt wood; Sketching from nature; China Decoration.

Students satisfactorily completing the courses above mentioned are eligible to the degree of Bachelor of Fine Arts.

Drawing and Sketching.

Skill in the Art of drawing and sketching is indispensible to success in primary teaching, and also greatly increases the efficiency of the teaching in natural history and physics. Indeed Drawing and
Sketching, once thought mere accomplishments, are now recognized as attainments of utility to every calling. Drawing occupies so prominent a place in the work of the public schools, that the call for competent teachers of drawing is noticeably increasing. The work in Drawing embraces Pencil, India Ink, Crayon, Charcoal and all Black and White Work.

Crayon.

There is always a demand for crayon artists. The few materials, the ease and rapidity with which crayon work can be executed, and the comparatively short time required to learn it are considerations that lead many to prefer it to oil-painting. This department is in charge of an accomplished artist.

Freehand and Perspective.

Special attention is given to Freehand, Lettering, Perspective, Projection and Mechanical Drawing. Those studying Engineering, Physics and Mechanics are required to take a thorough course in drawing. Students paying the regular tuition are admitted to general classes in Freehand, Lettering, Perspective and Mechanical Drawing without extra charge.

Painting.

As a necessary accomplishment, painting, at the present day, holds an equal place with music. Then, too, within much less time and at considerable less expense, anyone of moderate ability can become a fairer painter than performer on the pianoforte.

The courses in painting include Landscape, Portrait, Fruits and Flowers in Oil and Water Colors.

China Painting, Decorating of all descriptions, and Pyrography are taught in the College.

Lessons in Oil and Water Color, from still life or copy, and also in Crayon and Pen and Ink, from still life or copy, are given, four two-hour lessons each week.

DEPARTMENT OF MILITARY INSTRUCTION.

SCHOOL OF THE SOLDIER

SCHOOL OF THE COMPANY.

SCHOOL OF THE BATTALION.
ALBERT EDWIN SMITH, D. D., PH.D.,
President.

FIRST LIEUT. F. P. HOLCOMB, 14TH. U. S. CAVALRY,
Commandant.

Under act of Congress, approved April 21st, 1904, an officer of
the regular army is detailed at this University. This detail is con-
tinuous, the officers being replaced every three or four years.

The arms and equipments, and the artillery, with the necessary
appendages, are issued by the Ordnance Department of the United
States Army. The arms now in use are the United States Magazine
Rifle, Caliber 30, (commonly called the Krag-Jorgensen). These
rifles, as well as all the other infantry equipment, are entirely new,
having been received in March, 1908. The artillery is equipped with
the saber, in addition to the muzzle-loading guns, model 1861, with
carriage and limber. Swords and belts are furnished to the cadet
officers.

As soon as the local company of the Ohio National Guard com-
plete their target range, within a quarter of a mile of the University,
an effort will be made to hold annual target practice for all cadets,
using the service cartridge. At the present time target practice is
held with the sub-caliber rifle, caliber 22.

Military Companies Popular.

About eight hundred students are drilled each year in the Schools
of the Soldier Company and Battalion, and in the ceremonies. The
artillery is instructed in the School of the Cannoneer, and in the Man-
ual of the Saber, besides the regular foot drill. The Signal Corps is
instructed in visual signaling, both with the flag and torch. The
Band holds the regular band practice at the drill hour every day, and
is also exercised in the School of the Squad, (Infantry). Drill is held
every day for one hour, except Saturdays and Sundays. Officers
and non-commissioned officers school is held one hour a week by the
Commandant.

The drill (and school) is so timed as not to interfere with the
academic duties, and is found to be entertaining, invigorating and
healthful—a pleasant relaxation after the close sedentary hours of
the students' desk and class room.
Drill a Substitute for Electives.

Every able-bodied male student in the University is strongly urged, though not compelled, to enlist in the Battalion, and to take the practical and theoretical courses of military instruction. Once having registered, however, he is expected to follow habitually the drills or recitations until the term actually closes. It is expected that every able-bodied student intending to complete any of the University courses will drill and recite in this department three terms; the military work counting as a substitute for any elective in his course. In order to secure credit on the records of the University, the cadet is required to be regular in attendance, to be subject to all military discipline, to drill not less than one hundred and fifty hours, and to win a grade of at least 85 per cent.

Organization.

The Cadet Battalion at the present time consists of the following: One Cadet Major, one First Lieut. and Cadet Adjutant, one First Lieut. and Cadet Quartermaster, one First Lieut. and Cadet Band Leader, and one Cadet Sergeant Major.

1 1st. Lieutenant.
1 Drum-major.
4 Sergeants.
4 Corporals.
22 Privates.

The cadet organization consists of 244 men, not including a bugle corps of six men, making the grand total 250.

Appointments and Promotions.

The cadet officers are elected by the companies, and after due examination, if found proficient, are appointed by the Commandant of Cadets. The Non-Commissioned officers are appointed by the various company commanders, and after examination, as in the case of officers, are appointed. A cadet private of ability and energy may pass, in time, successively through the several grades to the captaincy of his company.

General Orders No. 155, War Department, dated July 24th, 1907, provide as follows: “All rules and orders relating to the organization and government of the military students; the appointment and change of officers, and all other orders affecting the military department, except those relating to routine duty, shall be made and promulgated by the Professor of Military Science and Tactics, after being approved by the chief administrative officer of the institution.”

The examination for officers, or for non-commissioned officers, comprises for sergeants and corporals, the School of the Soldier; for lieutenants, the School of the Company; for captains, the School of the Company and Battalion.

Captains who fail to maintain their companies in satisfactory condition as to strength and instruction are expected to tender promptly their resignations.
Uniform.

The Battalion of Cadets, and the various other organizations belonging to the military department will be uniformed as follows: Khaki breeches, olive-drab flannel shirt, canvas leggings, campaign hat, hat cord, and hat ornament. This uniform is similar to that worn by the troops of the Regular Army, and has been found to be the cheapest and most serviceable that can be found. All the parts of the uniform can be worn with civilian dress, so it is not a loss to the cadet after leaving the University. Tan or russet shoes are worn with this uniform, the style to suit the individual wearer. The entire uniform is of a superior quality, and can be purchased for about $8.20, subject of course to the change in the market prices.

Commissions and Warrants.

Commissions and warrants, similar to those issued in the Regular Army, are issued to the officers and non-commissioned officers after passing the prescribed examinations. The commissions and warrants are supplied at the actual cost, $1.35 for commissions and 60 cents for warrants. These are certificates of military service, and are valuable to the holder in after life, or in time of war. Commissions and warrants will remain in force while the cadet is a student at this University, or at the pleasure of the Commandant.

Prizes.

A special cash prize is awarded to each company during the Spring term to the cadet presenting the best appearance, and showing the greatest proficiency in drill and discipline.

Textbooks.

The following textbooks, furnished by the War Department, are designated for the course: Infantry Drill Regulations; Manual of Guard Duty; Field Service Regulations; Small Arms Firing Regulations; Outlines of First Aid to the Wounded; Lectures.

Special attention is given to the preparation of the cadets for the United States Military and Naval Academies, and of candidates for commissions from the ranks of the Regular Army.
Battalion Camp.

An effort is being made at the present time to have the whole Corps of Cadets go into camp for five days, near the end of each Spring term. This camp will be three miles from the city, on a large and well-watered farm, and will conform in every detail to camps of the Regular Army. The entire time in camp will be devoted to military instruction, comprising, besides drill, tent pitching, camp sanitation, guard duty, field engineering, messing and cooking in the field, etc. Each company and detachment will have the regulation Army conical wall and wall tents, the bed sack and blankets. Each company will mess separately. The cost of the mess will be that, (or less) of the regular board in the city.
