Semester Year Part of Term

In accordance with university policy (FH 3.37.3) the Registrar's Office will provide a list of **Independent Study** and **Special Topics** courses to be offered on the **Schedule Catalog Search and Dynamic Course Offerings** web pages. In order to provide this information a **descriptive title** and **course description** similar to a catalog description for a regular course offering are needed for each Independent Study or Special Topics section. This form eliminates the need to list these on the Semester Course Offerings form.
