

The following course schedule types have been created to assist the Registrar with scheduling and course records. These standard schedule types are based on a reasonable approximation of the Carnegie Unit, which has stipulated that one semester credit hour be awarded for fifteen sessions of a 50-minutes duration in classroom lecture-recitation each requiring two hours of outside preparation by the student. This minimum standard does not restrict a higher standard that requires more student work per credit hour.

New Banner Code	Schedule Type (Fall 2014 and after)	Definition
L	Lecture	One credit hour for one hour of faculty-led classroom instruction per week for a 15-week term. This assumes normal outside preparation by the student of two hours for every hour in class.
LB1	Lab 1:1 credit/contact ratio (1+2)	One credit hour for one classroom hour per week for a 15-week term. This is for supervised group activity such as a laboratory involving substantial outside preparation by the student (two hours for every hour in class).
LB2	Lab 1:2 credit/contact ratio (2+1)	One credit hour for two classroom hours per week for a 15-week term. This is for supervised group activity such as a laboratory involving outside preparation by the student (one hour per week).
LB3	Lab 1:3 credit/contact ratio (3+0)	One credit hour for three classroom hours per week for a 15-week term. This is for supervised group activity such as a laboratory involving less than one hour per week of outside preparation by the student.
LLB	Lecture/Lab	Combination definition of Lecture and Lab.
LLC	Lecture/Lab/Clinical	Combination definition of Lecture, Lab, and Clinical.
LCN	Lecture/Clinical	Combination definition of Lecture and Clinical.
II	Individual Instruction	One credit hour for three hours of individualized instruction by the instructor and outside preparation by the student per week for a 15-week term. Meets the same learning outcomes as regular instruction.
IS	Independent Study	One credit hour for three hours (on average, per week) of supervised work by the student including any one-on-one meetings with the instructor for a 15-week term.
S	Seminar	Highly focused course that may include student-presented research. One credit hour for one classroom hour per week for a 15-week term. This assumes normal outside preparation by the student of two hours for every hour in class.
RES	Research	Reflects an experience of faculty mentored student research that is unrelated to student competitions. One credit hour for three hours (on average, per week) of supervised work by the student including any one-on-one meetings with the instructor for a 15-week term. While this course is repeatable, each course offering a student completes will be distinctly different than previous enrollments. Thus, no letter grade from a research schedule type course can be excluded from GPA. No more than 3 credit hours of research coursework count towards undergraduate graduation requirements.
HYB	Hybrid Courses	One credit hour for one hour of faculty-led classroom and internet-based instruction per week for a 15-week term. This assumes outside preparation by the student of two hours for every hour of instruction. Over the course of the term, students should meet with the faculty member in person for at least 25% of the contact hours.
DL	Distance Learning <i>These courses must be reviewed and meet Quality Matters standard.</i>	One credit hour for three hours of remote instruction and student preparation per week for a 15-week term. Distance education uses the internet or other technologies (i) to deliver instruction to students who are separated from the instructor: and (ii) to support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. These courses must be reviewed and meet Quality Matters standards. Click on the link to the left to review Quality Matters.
STT	Student Teaching	One credit hour for one week of full-time student teaching.
PA	Performance/Activities	One credit hour for one and a half hours of in-class instruction and/or student performance/rehearsal where the student is engaged in the study and application of theory and techniques to further advance student's proficiency in their field of performance. The student will complete one and a half hours of outside preparation for every one and a half hours of in-class instruction during the 15-week term.
PC	Practicum/Clinical	One credit hour for every three hours of practicum/clinical per week, supervised by a faculty member and/or an approved member of an outside agency, for a 15-week term.
PH	Pharmacy Rotations	One credit hour per week of full-time professional experience.
CO	Co-op	Cooperative education (or Co-op) is a partnership between students, ONU, and employers that formally integrates students' academic study with work experience in cooperating employer organizations. These experiences are multi-semester, the students are paid via compensation, there are evaluations by both ONU and the employer, and students will receive 1 credit hour for every semester they participate in a co-op assignment.
IN	Internship	Internships are a partnership between students, ONU, and employers that formally integrate students' academic study with work or community service experience. The internship will be for a specified duration, will have performance evaluations from both ONU and the employer, and it may involve compensation. Students can register for 1 credit hour per 100 hours of recorded internship experience. No undergraduate degree program can require more than 3 credit hours of internship, and undergraduate students can apply no more than 6 credit hours towards their degree requirements. Note: The College of Law has a different ratio, defining 1 credit hour for a minimum of 37 hours of recorded internship experience.
CAP	Capstone	One credit hour for three hours (on average, per week) of supervised work by the student including any one-on-one meetings with the instructor for a 15-week term.
CEC	Certificate	Continuing Education certificate - currently only used by PMCP.
ABR	Study Abroad	Study abroad is an educational experience outside the United States that is completed by ONU students as part of their degree program.
V	Varsity Sports	Students who belong to a varsity sport and are listed on the team's roster are awarded 1 credit hour using the S/U grading scale for every season a student successfully completes. Students will be expected to have met for team practices at least 10 hours per week under the direction of their coach, in addition to attending competitions.
