**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared
by an Ohio Educator Preparation Provider at Ohio Northern University**

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results is actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2015, 2016, 2017, and 2018.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

Completing Principal Preparation Programs at Ohio Northern University**

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2015, 2016, 2017, and 2018.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results is actually a chronological view of evaluations. Field and Clinical Experiences for Candidates at Ohio Northern University

Reporting Period from Sept 1, 2018 to Aug 31, 2019

(Data Source: Ohio Northern University)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Ohio Educator Licensure Examination Pass Rates at Ohio Northern University

Reporting Period from Sept 1, 2017 to Aug 31, 2018
(Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses. Further, because the data are gathered from the Title II reports, there is a one year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2018-2019.

As of 2013, the Ohio Assessments for Educators replaced the Praxis subject assessments for initial licensure. Some Praxis II assessments are still being reported because recent program completers took those tests in or before 2013.

Value-Added Data for Students Taught by Teachers Prepared by Ohio Educator Preparation Providers at Ohio Northern University

Reporting Period from Sept 1, 2018 to Aug 31, 2019

Description of Data:

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of, 2015, 2016, 2017, and 2018.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.
