All Program Completers 2016-17	22	22	100%	96%

Notes:

*nc: Statistical conclusions cannot be drawn when less than 10 individuals have taken a test (Rule of 10).

**na: Data not available

¹ Sum of the “# Takers” for each assessment will not equal the number of program completers used in the Summary Pass Rate calculation since a completer can take more than one assessment.

² The Summary Pass Rate is defined as the percentage of completers who passed all tests they took for their area of specialization (# Passers) among those who took one or more tests in their specialization areas (# Takers).
