

## HARDIN COUNTY AND SURROUNDING REGION

Once part of the great black swamp and then American Indian territory, Hardin county was organized in 1833 and named after John Hardin, a revolutionary war officer. Kenton is the county's largest town and the county seat. With rich farmland and abundant timber, the county's main industry is agriculture. But the county also boasts many successful small and large businesses powered by a hardworking and resilient workforce. The county also is home to an old order Amish community. These private and plain people travel by horse and buggy and do not have electricity or telephones in their homes. Visitors can traverse scenic roadways past Amish farms and stop to purchase fresh produce, honey, baskets, quilts, soaps and more.

## ARTS AND CULTURE

The arts thrive in the local region. The Lima Symphony Orchestra has been around since the 1950s and every year provides a top-notch season of music. Ohio Northern hosts the symphony's Patriotic Pops concert in July on campus grounds.

The Veterans Memorial Civic and Convention Center in Lima and the Marathon Center for the Performing Arts in Findlay feature a variety of national and international performance groups throughout the year. They both offer reduced ticket prices for students for many shows.

ArtSpace/Lima supports the visual arts with gallery shows and special events throughout the year. And the Encore Theatre in Lima and Fort Findlay Playhouse put on outstanding plays with local talent several times a year.

Old City Prime is a modern day classic American steakhouse. You can also check out La Charreada.

## ECONOMICS

Three indicators of a region's vitality are its businesses and industries, its health care systems, and its educational institutions. The Hardin County Chamber and Business Alliance, with its four divisions: Chamber of Commerce, Economic Development, Community Development, and Tourism, is one of the largest, member-driven and business-focused organizations in Hardin County. With more than 300 local and regional members, the alliance serves the community to promote, cultivate and advocate for a prosperous business, educational and agricultural climate; strengthen the local economy; and improve the quality of life.

Graphic Packaging, Robinson Fin Machines Inc., SBHPP-Durez, Precision Strip and McCullough Industries - an Olympic Steel Company are top business and economic leaders in the Kenton area. Marathon Petroleum (Findlay), Honda of America Manufacturing (Marysville), and Crown Equipment Corporation (New Bremen) are just a few of the thriving large corporations in the area that hire ONU interns and graduates. The region also boasts many entrepreneurial and family-owned businesses. Citizens enjoy excellent health care provided by four health care systems: OhioHealth Hardin Memorial Hospital (Kenton), Blanchard Valley Health System (Findlay and Bluffton), Mercy Health Partners (Lima) and Lima Memorial Health System (Lima). And just a few hours from Ada are some of the nation's most highly rated hospitals - The Cleveland Clinic and The James Cancer Center at Ohio State University.

Ohio Northern is joined in the region by several institutions of higher education: Bluffton University, the University of Findlay, Rhodes State College, Ohio State University at Lima and Owens Community College. The close proximity of these institutions enables collaborative efforts and additional cultural opportunities for citizens.
