OHIO NORTHERN UNIVERSITY

HONORS PROGRAM

LEARN. SERVE. DREAM. BELIEVE.

*Help ONU honors students
reach their potential*

Give a gift that will support the aspirations of future leaders, thinkers and doers

Ohio Northern University's reputation for academic excellence attracts intelligent and hardworking students who excel both inside and outside of the classroom.

We designed our Honors Program to challenge ONU's most intellectually gifted students. These students possess the potential for extraordinary academic achievements, such as becoming Fulbright or Goldwater scholars.

Through our Honors Program, students discover the community and challenge they need to reach their full potential. They join with intellectually curious peers to delve deep into subjects of interest. They work closely with faculty on advanced projects, become leaders on campus and serve the wider community.

Our Honors Program is a training ground for tomorrow's leaders and difference makers. By supporting our Honors Program, you enable us to attract and inspire these outstanding young scholars.

MOLLY RYAN
PHARMD '22

"The Honors Program has been one of my best experiences at Ohio Northern, both academically and socially. It prepared me to be a good candidate when the opportunity came to apply for a Fulbright grant (which I received) to study in Hungary. This community and academic concentration develops the intellect, talent and ambition of its members and, makes us more competitive for internships and residencies after ONU."

SUPPORT THAT HAS IMPACT

OHIO NORTHERN UNIVERSITY
HONORS PROGRAM

ONU honors students rank among the best undergraduate scholars in the country. Their intellectual curiosity and enthusiasm for learning deeply enrich our campus. With your support, we can provide better opportunities for our honors students and make ONU a future destination for the brightest students of tomorrow.

HOW CAN YOU HELP? ▷▷

ESTABLISH HONORS SCHOLARSHIPS

The establishment of Honors scholarships would elevate the prestige of ONU's Honors Program and take it to the next level. Honors scholarships would enhance our ability to recruit the best and brightest scholars to campus. In addition, we could increase the number of students from underrepresented communities participating in the program.

SUPPORT HONORS STUDENT PROJECTS

Honors students tackle ambitious projects to advance their subject knowledge. By making funding available for these projects, we could amplify student achievement. Honors students could use the funds for research, equipment, materials and travel to produce groundbreaking work. In addition, Honors project funding would be a key attraction for prospective students.

DEVELOP DISTINCTIVE PROGRAMMING

The Honors Program provides distinctive learning and leadership experiences. Your support would allow us to expand and enhance our offerings. Opportunities could include bringing notable experts to campus, special topic seminars and speakers, the creation of study abroad opportunities, the establishment of service learning activities, and much more.
