

RAABE COLLEGE OF PHARMACY

LEARN. SERVE. DREAM. BELIEVE.

*Help ONU pharmacy students
reach their potential*

Filling needs, not prescriptions

Ohio Northern University's pharmacy graduates stand out from the crowd. They are confident and practice-ready thanks to the rigorous hands-on education offered at the Raabe College of Pharmacy. They are also driven by a sense of purpose - whether that's to provide direct patient care, to advance important research or to seize a new business opportunity.

The Raabe College of Pharmacy sets its graduates up for success by immersing them in diverse pharmacy practice settings. The ONU HealthWise mobile clinic, community pharmacy, drug and health information center and Wheeler pharmacy services center, all deliver important patient care, and shape students into compassionate health care professionals. Esteemed faculty members engage students in research projects that lead to valuable discoveries and open doors to meaningful careers.

For students, what sets ONU apart is the combination of rigorous professional preparation with a rich campus experience and family like environment. Faculty members know students by name, and many alumni return to campus to teach and mentor students.

The Raabe College of Pharmacy has a reputation and outcomes among the best in the nation. ONU pharmacy students pass their licensing exams at rates in the top 10% nationally, secure post-graduation residencies at rates in the top 5% and find post-graduation employment at rates of 95% or better.

ABDULLAH ALSAMMAN
PHARM.D '21

"ONU's rural community setting allowed me to enhance my classroom-learned clinical skills by providing health care services and health education to underserved populations that need it the most. This showed me that as an individual future pharmacist, I have a huge role to play in the health and well-being of my community. I can make a positive impact on someone's life."

Invest in facilities for the future

The College of Pharmacy seeks to expand its skills training spaces where students gain practice experience. The College's research facilities also require upgrades to incorporate new technology and research best practices.

Through the *Forward Together* campaign at ONU, donors like you can help students reach beyond their expectations, attain their dreams and lead our communities forward.

SUPPORT THAT HAS IMPACT

Donors have a vital role to play in maintaining the high standards and close-knit culture that make the Raabe College of Pharmacy a leader in pharmacy education.

SUPPORT THE RAABE COLLEGE OF PHARMACY

HOW CAN YOU HELP? ▶▶

ATTRACT THE BEST, ENSURE SUCCESS – INVEST IN STUDENT SCHOLARSHIPS

- Donors can establish scholarships that make an ONU pharmacy education possible for deserving students. The College of Pharmacy is committed to recruiting students from all backgrounds and helping them thrive and succeed. Donor-funded Diversity Scholarships foster an ONU community that reflects the many origins, perspectives and aspirations of today's America.
- Donor-funded summer research scholarships, student travel scholarships and other high impact experiences gives all students a window into potential career avenues while building valuable skills and connections.

CELEBRATE FACULTY – INVEST IN TEACHING AND LEARNING EXCELLENCE

Faculty are deeply invested in student success and committed to their role as teachers and mentors. They are also leaders in their profession – award-winning health care innovators, dedicated researchers and community health advocates.

Donors can support outstanding education through programs that sustain this level of excellence. The breadth and caliber of faculty at ONU gives students unparalleled access to faculty-led research and practice opportunities.

- **Endowed positions** like professorships, chairs and fellows provide faculty members with funding to pursue research and professional development that will ultimately benefit students.
- **Faculty awards** for scholarship, teaching excellence and service emphasize the core values of ONU, and reward faculty members for their efforts to encourage and guide students to fulfill their potential.
- **Summer scholars and sabbatical funding** give faculty the time and resources to pursue research, advocacy or professional service.
- **Endowed funds** for teaching and learning resources ensure pharmacy students always benefit from the most effective learning technologies and educational resources delivered by faculty who have regular access to professional development.

PHARMACY SKILLS ENRICHMENT & INNOVATION FUND

Students in the Raabe College of Pharmacy learn just as much outside the classroom as they do inside. High impact learning experiences like research projects, professional conferences, and workshops, give them an edge. Support for the **Pharmacy Skills Enrichment & Innovation Fund** provides the college with annual discretionary funding for emerging needs and opportunities that enhance the student experience.
